If you wish to find out more about Windows 7 please call or email

[phil@questcomputing.co.uk](mailto:phil@questcomputing.co.uk)

## Sage Finance

---

### DON'T FORGET!

When ordering Sage Stationery from us we offer:

- Ease of ordering - all orders and price enquiries are done with one simple email to: [stationery@questcomputing.co.uk](mailto:stationery@questcomputing.co.uk)
- Free delivery on all orders
- Normally next working day delivery\*

If you have any questions about these products please email us at the address above or call us on 0114 2750006.

Spread the cost of your Sage and Networking implementation with Sage Finance. Allowing us to offer most solutions over three, four or five year terms, a Sage Finance package allows a structured and fixed cost monthly budget to be set for your project.

### Key benefits to you, the customer

1. **All costs covered**  
A Sage Finance payment plan needn't just cover software – customers can also include training, hardware and maintenance costs, in one simple, regular payment.
2. **Tax advantages**  
Sage Finance confers considerable tax advantages, because it allows companies to treat IT as an operating expense rather than an asset. So using IT finance can actually be cheaper than paying cash.
3. **Controlling cashflow**  
Spreading the cost creates instant cashflow benefits, that lets your customers demonstrate return on investment from day one and releases funds for reinvestment elsewhere.
4. **Easy upgrades**  
With a Sage Finance payment plan customers can build in upgrades and migrations, without increasing payments.
5. **Simple to apply**  
With a Sage Finance payment plan, documentation is kept as simple as possible.

**For further information please email us on [phil@questcomputing.co.uk](mailto:phil@questcomputing.co.uk) and we will be happy to help.**

## Online Backup

**Automated, secure, off-site backup**  
**– The easy way to protect your valuable data...**

### Backup your PC / Laptop

'Automated and hassle-free backup in highly secure mirrored data centres. Simple and fast data recovery including free email and telephone support.'
